

Nines Tables

Lay a pencil over the number that you wish to multiply by nine. The number of digits visible on the *left* will be the number of *tens*. The number of digits on the *right* will be the number of ones.

Example: Cover the number 8.

$$\begin{array}{r} \text{There are 7 digits or 7 tens on the left} = 70 \\ \text{There are 2 digits or 2 ones on the right} = \underline{2} \\ \text{Answer:} \qquad \qquad \qquad 72 \end{array}$$

1 2 3 4 5 6 7 8 9 0
